

SACRT'S NEW BUS NETWORK

ARRIVING SEPTEMBER 8, 2019

SacRT bus service has been reimagined.

What does this mean for you?

▶ **More Service**

SacRT's new bus network improves trips to key activity centers (jobs, education, entertainment and more) throughout the region. Increased weekend service gives you more freedom to go where you want, when you want – 7 days a week.

▶ **Better Service**

We're simplifying our routes with improved connections. With routes that work together, the new bus network provides more connections to destinations throughout our region. The new bus network will have better timed buses to connect riders to light rail trains.

▶ **Your Service**

We've created a network that not only serves our community today, but anticipates for expansion into the future. The new bus network has the potential to connect 1 million people to 500,000 jobs within half mile of each bus stop.

**Regional
Transit**
