#### November 16, 2018

## To the Board of Directors and Citizens Served by the Sacramento Regional Transit District:

The Sacramento Regional Transit District (the District) is required to undergo an annual audit in conformity with the provisions of the Single Audit Act and U.S. Office of Management and Budget Uniform Guidance as it pertains to audits of state and local governments. State law requires that all local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards accepted in the United States of America and the standards applicable to financial audits contained in *Government Audit Standards* issued by the Comptroller of the United States within 6 months of the close of each fiscal year. Pursuant to that requirement, the District hereby issues the Comprehensive Annual Financial Report (CAFR) of the District for the fiscal year ended June 30, 2018.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of the District annually commissions an independent audit of its account records, consistent with the Sacramento Regional Transit District Board of Directors' (Board) fiduciary duty to preserve and protect District assets and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Crowe LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the District's financial statements for the fiscal year ended June 30, 2018, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there are no material weaknesses to report and that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2018, are fairly presented in conformity with GAAP.

The independent audit of the financial statements of the District was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements but also on internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the District's separately-issued Single Audit Reports.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the independent auditor's report of Crowe LLP.

#### **Profile of the District**

The District began operation on April 1, 1973, with the acquisition of the Sacramento Transit Authority. The District is the largest public transportation provider in the Sacramento region, serving a metropolitan population of over 1.0 million with a service area of approximately 400 square miles. In 1971, California legislation allocated sales tax money for local and statewide transit service, and created the organizational framework for the District pursuant to the Sacramento Regional Transit District Act.

An 11-member Board of Directors is responsible for governing the District. The Board is comprised of four members of the Sacramento City Council, three members of the Sacramento County Board of Supervisors, one member of the Rancho Cordova City Council, one member of the Citrus Heights City Council, one member of the Folsom City Council and one member of the Elk Grove City Council. The Board is responsible for, among other things, passing ordinances, adopting the budget, appointing committees and hiring both the District's General Manager/Chief Executive Officer (GM/CEO) and Chief Counsel. The District's GM/CEO is responsible for carrying out the policies and ordinances of the Board for overseeing the day-to-day operations of the District, and for appointing the executive management of the various divisions.

The District provides bus and light rail service 365 days a year covering a 400 square-mile service area. Annual bus and light rail ridership has grown from 14 million passengers in 1987, to approximately 21 million passengers in fiscal year ended June 30, 2018. More recently, consistent with industry trends, the District's ridership has declined and as such this has now become one of the District's 12 strategic initiatives. The District's entire bus and light rail system is accessible to the disabled community. Additionally, through a contract with Paratransit, Inc., the District provides origin-to-destination transportation service (in accordance with the Americans with Disabilities Act of 1990) for people that are unable to use fixed-route service.

The District's annual budget serves as the foundation for financial planning and control. The budget is a financial plan for one fiscal year of operating revenue and expenses, and capital investments. The plan matches revenues with the service expenses and project cost expenses based on policies set by the District's Board. The budget process follows three basic steps that help provide continuity in decision making: 1.) assess current conditions and needs, and develop goals, objectives, policies and plans; 2.) prioritize projects and develop a work program, and 3.) implement those plans and policies, and prepare to evaluate their effectiveness and shortcomings.

The District's General Manager/CEO presents a proposed budget to the Board for a 60-day public review period beginning in April. Following the review period, the District is required to hold public

hearings on the proposed budget and to adopt a final budget no later than June 30, the close of the District's fiscal year. The budget is prepared by fund (operating or capital), division and department (e.g., safety) or by capital project. The legal level of control is at the fund level, where budget amendments are authorized by the Board. The responsible division executive manager and the GM/CEO authorize interdivisional transfers. The respective division directors and department managers authorize intra-divisional transfers and the responsible manager authorizes departmental transfers.

#### **Factors Affecting Financial Condition**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates bus and light rail service.

#### **Local Economy**

The District operates service in the capitol city of the fifth largest economy in the world. The Sacramento region, which includes six counties (El Dorado, Placer, Sacramento, Sutter, Yolo and Yuba), has varied state governmental services and a light industrial base. The annual unemployment rate for the Sacramento area in 2018 was 4.2 percent down from 5.3 percent in 2017. The Sacramento region is expected to see the unemployment rate stay to the low 4 percent range in the next two years.

Residential construction continued its upward trend in 2018 with 9,600 single family homes being built, which is a 18 percent increase over 2016 levels. Forecasts for the region show three to four more years of solid economic and housing growth ahead as home buyers seek more affordable homes outside of the Bay area.

A significant portion of the District's operating funds are derived from sales tax revenues. In 2018, taxable sales in the Sacramento region rose resulting in an increase of 5.8 percent in the Local Transportation Fund and a 5.5 percent in Measure A Revenue. It is estimated that taxable sales in 2019 will increase approximately 4.0 percent resulting in a similar increase in the Local Transportation Fund and Measure A Revenue.

The Sacramento region real estate market remains strong in 2018, as new construction has not kept up with demand. Economic growth continues to transform Sacramento's landscape with many new mixed-use and transit oriented development projects on the rise.

#### **System-Wide Improvement Initiatives**

The fiscal year ending on June 30, 2018, continued the District's historic journey to excellence. During the fiscal year, significant progress was made to explore innovative transportation models, restore fiscal stability, attract new riders and heighten our commitment to providing clean, safe and convenient mobility solutions for people who live, work and play in the Sacramento region. By implementing a strategic vision and associated action plan, many of these accomplishments were achieved with limited funding, doing more and better with less while making District's customers happy and satisfied.

Creating this bold vision, which was used as a catalyst, the District's team will continue to align staff to common goals, increase collaboration, work with our many vital community partners and key stakeholders to continue its steadfast commitment to providing a world-class public transit system that the region deserves. Providing transportation excellence through enhanced customer service and innovation will continue to be the District's number one mission now and into the future.

Strategic Planning & Development: The District envisions a more expansive, convenient and frequent public transit network. Identify innovative service enhancements, infrastructure, capital improvements projects that will attract more riders to the system.

Financial Stability, Accountability and Business Process Optimization: The District is dedicated to strengthening our financial footing by tapping innovative revenue sources and conducting relentless organizational optimization to fund our current level of service, state of good repair initiatives, maintenance and capital investments, and build reserves. The District will continue to identify and implement cost-cutting measures to maximize efficiencies and minimize duplication, consistent with operating like a true business. The District will continue to seek operating revenues through more local, state and federal funding, as well as pursue capital grant opportunities.

Strategic Vision, Innovations and Best Practices: Develop and implement industry best practices by reimagining a more innovative service network and leveraging new technologies to improve the customer experience by making it easier to ride transit, receive information, and pay fare.

System Security: Prioritize security efforts by implementing industry best practices and response to customer concerns over safety and security.

Operational and Occupational Safety: Focus on employee and customer safety through better training, data collection, use of technology, and public education. The District will maintain strong relationships with regulatory agencies and seek guidance whenever necessary.

Strategic Communications and Partnerships: Ensuring that District customers can intuitively navigate the bus and light rail system is critical to attracting new customers and building ridership. To ensure this, the District will continue to promote programs and incentive options that will encourage more people to try transit, and educate the public about the benefits of transit and how local funding is important to create a "world class" public transit system.

Organizational Excellence and Performance Management: Make positive transformations that include building a strong workforce, negotiating fair and equitable labor and non-labor agreements, implementing cost-saving alternatives and progressing efforts to make a significant change in organizational culture.

#### **Major Initiatives Moving Forward in FY19**

Route Optimization Study: The District will continue with the SacRT Forward route optimization study, develop network options, seek public and stakeholder input, submit alternatives for Board consideration, and design a final network plan for Board review and adoption, including expanded network options when additional local funding is available. The results could unleash the region's economic potential by connecting transit services to approximately 1 million people, 300,000 jobs, 20 colleges and universities, 18 hospitals and major medical facilities, more than 25 business districts, and many major attractions all within a quarter-mile of District bus and light rail stops. Implementation will begin in summer 2019.

**Annexation**: The District progressed regionalism and annexation that will consolidate all transit agencies in the region to provide seamless connectivity. The City of Folsom annexed their bus service to the District on November 13, 2018, and the City of Citrus Heights is anticipated to join during FY19 making the region more competitive for state and federal funding opportunities.

Real Estate: The District progressed TOD investments that have been 30 years in the making. The District signed a purchase sale agreement for properties located at the University/65th Street light rail station: Should generate \$1.9 million, 880-936 Arden Way, which generated close to \$900,000, and 2200 Cemo Circle which should generate \$1.6 to \$1.8 million. The District is in negotiations to bring the market TOD properties located at Calvine Road/Auberry Drive which should generate a little over \$1.5 million. As the District continues to market underutilized properties, it is expected that when all the properties are built out they will include student, low income and market rate housing units with retail establishments that are walkable mixed-use communities centered around public transit, which will attract new riders. These properties are at different stages in the process.

Additionally, the District is working with ULI (Urban Land Institute) to market underutilized light rail station and parking properties to developers. The collaboration with ULI and developers bypasses the traditional approach of working with brokers and advances the creative process to market and develop some of the District's properties.

**SmaRT Ride:** Expand SmaRT Ride the District's on-demand microtransit service, with new routes in communities across Sacramento County. The Sacramento Transportation Authority awarded \$12 million in grant funding to expand SmaRT Ride service with new routes to operate in communities across Sacramento County. The next phase is to launch in Downtown, Midtown and East Sacramento.

**State-of-Good-Repair**: The Districts is actively pursuing funding to address the State-of-Good-Repair initiative. This is needed to begin the immediate replacement of the aging light rail vehicle fleet and supporting infrastructure. The District has been very successful in terms of applying for the capital funding grants for our state-of-good repair projects. In early this year, The District was awarded \$85 million in state SB-1 funds to modernize our light rail system.

**Secure Additional Local Funding**: The District is working diligently with key stakeholders, community leaders, media, elected officials and developing educational programs to support and secure local, state and federal assistance including, a potential local sales tax initiative.

**Technology Advancements:** The District is committed to improving the customer experience by offering state-of-the-art rider tools and fare payment options that allow for seamless navigation of the transit network. The District embraces technology and are reinventing our business model to reflect this commitment. Procure permanent microtransit software and scheduling vendor to expand SmaRT Ride on-demand microtransit service. Complete the installation of the Computer Aided Dispatch/Automatic Vehicle Location (CAD/AVL) system and associated reports to improve service operations and reliability.

System-wide improvement projects that have begun or are in the process of beginning are as follows:

#### **Mobile Applications**

To improve the customer experience, the District is expanding on its successful launch of several mobile applications, a convenient way for customers to purchase fares, and also provided an added level of security through the implementation of two mobile applications: ZipPass provides greater mobile connectivity for customers, enables the District to quickly customize mobile ticketing as well as enhanced features for fare evasion. In-line with the Connect Card, ZipPass provides multi-transit agency connectivity for fare purchases using a single application and Alert SacRT, which provides

customers an anonymous way to report safety concerns or nuisance behavior. Both apps have seen successful results and increased interest.

#### **Fare Vending Machine Replacement**

In addition to bringing on new technology to enhance customer buying options, the District has a project to replace more than half of its older fare vending machines with new machines that will accept debit cards, credit cards, cash as well as distribute Connect Cards. Since many customers still rely on cash, debit and credit options, replacing these old machines with new technology will include faster payment options as well as improve reliability and save costs associated with necessary repairs to maintain their operation.

#### **Downtown/Riverfront Streetcar**

The District is collaborating with the City of Sacramento and the City of West Sacramento in the design, construction and operation of the streetcar project that will link midtown, downtown Sacramento, the Bridge District and the City Hall complex in West Sacramento. The District, through a contract with the Joint Powers Authority created by the two Cities, will design the system, procure the vehicles, and construct the project.

In August 2016, the California State Transportation Agency announced a \$30 million grant from state cap-and-trade funds. In June 2017, the District approved \$25 toward the construction project fund. If approved by Congress the Small Starts Federal Transit Administration grant would provide 50% of the funding for the estimated \$208 million project. The District will be the Federal grantee with the funds flowing to the project through an agreement between the District and the Joint Powers Authority. Private sector contributions through a Community Facilities District within the City of Sacramento was approved by targeted property owners within the corridor in July 2017 to help fund the annual operations and maintenance of the streetcar system.

Nationally, streetcar projects have demonstrated economic benefits and pedestrian mobility improvements and will provide similar benefits for the Sacramento region.

#### **Green Line to the Airport**

The Green Line to the Airport light rail extension project is the continuation of the Green Line to the River District (GL-1) across the American River and through the Natomas communities to the Sacramento International Airport.

This major light rail infrastructure project, with many planned components, proposes to add approximately 13 miles of track: 13 light rail stations, including seven with park-and-ride lots; a bridge crossing the American River; and a light duty maintenance facility. The funded scope is limited to the Alternatives Analysis (Complete), the Draft Environmental Impact Statement/Environmental Impact Report (DEIS/EIR) is expected to be completed in late 2018 and advanced conceptual engineering of key areas along the remaining portion of the corridor.

The project's current focus is on the Sacramento Valley Station loop, which will be built to accommodate operations for the Green Line to the Airport and the Downtown/Riverfront streetcar projects. The loop is also expected to serve the Sacramento Railyards development, which includes housing, sports entertainment and a major medical facility is scheduled to be complete in 2020.

#### **Gold Line Double Tracking**

The District's double tracking project will occur between Sunrise Station and the Historic Folsom Station. The single tracking that is currently in place restricts light rail trains to 30 minute service frequencies, but double tracking will allow for 15 minute service as well as ease congestion around the Gold Line in Folsom. The funded project is scheduled to be complete by summer 2021.

#### **Light Rail Vehicle Procurement**

Efforts to modernize the rail fleet will reduce the District's maintenance and repair costs associated with keeping aging light rail cars in service past their 30-year useful life. It's anticipated that 20 new low-floor vehicles will be in service by spring 2021, due manufacturing lead time.

#### **Electric Vehicles**

The District secured funding to purchase 21 electric buses. One of the major projects is working with Yolo County and Electrify America for the Green Cities initiative. They will provide funding to purchase 15 electric buses. Out of the 15, 12 are big buses for express bus shuttle between UC Davis and downtown UC Medical Center within one to two years.

#### **Balanced Funding Concepts**

While the District has extensive plans for future expansion and improvement of light rail and bus services, it faces significant capital replacement and infrastructure maintenance needs for its existing bus and light rail systems. As a result, it is increasingly important to ensure the availability of financial resources to maintain existing levels of service and to fund capital and operating expenditures related to proposed expansion and service improvements. The 25-year vision balances high-priority needs with potential funding. There are three major sources of funding:

- Locally controlled federal and state funding sources (funding given to local governments and agencies to spend on their priority projects)
- Federal discretionary funding sources (designated by the federal government for a specific project)
- Locally raised money (from county sales tax and development fees)

Most of the federal and state revenues that the District receives are generated by the Section 5307/5309/5337 federal transit funds and the state transportation account, rather than general funds.

The District has specific and continuing Securities and Exchange Commission (SEC) disclosure requirements (Rule 15c2-12) in connection with the 2012 Series Revenue Bonds. The required continuing disclosure items and their locations within the CAFR are presented on page 87.

The District maintains three retirement plan Pension Trust funds for the District's union employees, which accounts for the retirement fund of the members of the ATU and IBEW and another for the District's salaried employees. Each year, an independent actuary engaged by the respective Retirement Boards calculates the amount of the annual contribution that the District must make to the Trusts to ensure that each retirement plan will be able to fully meet its obligations to retired employees on a timely basis. The District fully funds each year's annual required contribution to the Trusts as determined by the actuary.

#### **Awards and Acknowledgements**

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2017. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state or local government financial reports. This was the 18th consecutive year that the District has received this award. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR. This report must satisfy both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of only one year. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of several departments and the tireless efforts of the finance department staff. We would like to express our appreciation to all members of the departments who assisted and contributed to the preparation of this report, with special thanks to Paul Selenis, Accounting Manager; Jamie Adelman, Treasury Controller; Nadia Mokhov, Senior Financial Analyst, Maria Whitworth, Senior Administrative Assistant.

#### INDEPENDENT AUDITOR'S REPORT

Members of the Board of Directors Sacramento Regional Transit District Sacramento, California Members of the Board of Directors Sacramento Area Council of Governments Sacramento, California

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the business-type activities and the fiduciary activities of the Sacramento Regional Transit District (the District), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the fiduciary activities of the District, as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Emphasis of Matter**

As discussed in Note 1 to the financial statements, during the year ended June 30, 2018, the District adopted new accounting guidance, GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits* other than Pensions, which resulted in a restatement of the District's July 1, 2017 net position of its business-type activities in the amount of \$19,236,381. Our opinion is not modified with respect to this matter.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of changes in the net pension liability and related ratios, the schedule of District pension contributions, the schedule of changes in the net OPEB liability and related ratios, and the schedule of District OPEB contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying introductory section and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

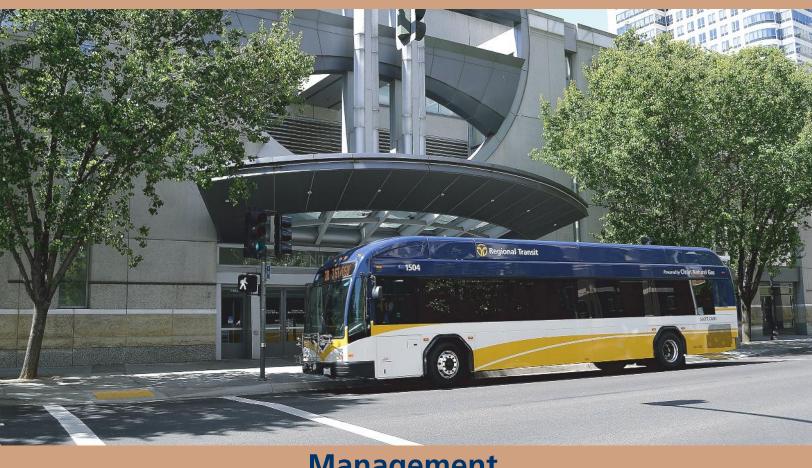

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 16, 2018 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

# Management Discussion & Analysis

#### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

As management of the Sacramento Regional Transit District (District), we offer the readers of the District's financial statements this narrative overview and analysis of the financial activities for the District for the fiscal year ended June 30, 2018. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in the transmittal letter and financial statements which are included in this report.

#### **Financial Highlights**

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at June 30, 2018 by \$794,522,093 (net position). Of this amount \$852,174,010 is net investment in capital assets, \$3,483,942 is restricted for debt service, and \$(61,135,859) is unrestricted. The District's negative unrestricted net position is attributed to recording its net pension liability and net Other Post-Employment Benefits (OPEB) liability per GASB Statements No. 68. and No. 75, respectively.
- The District's total net position decreased for the year ended June 30, 2018 by 3.3 percent, or \$27,576,194 compared to the year ended June 30, 2017. This decrease is primarily the depreciation on District assets, which was mitigated by the District's operating surplus.
- The District's total liabilities and deferred inflows of resources increased by \$10,018,545 for the fiscal year ended June 30, 2018. The net increase is attributed to the implementation of GASB No. 75, which include the recording of a net OPEB liability and deferred OPEB inflows. This increase was partially mitigated by a decrease in the net pension liability resulting from performance and changes in actuarial assumptions.
- During the fiscal year ended June 30, 2018, fare revenue decreased by \$3,210,867 or 10.5 percent from the fiscal year ended June 30, 2017. This is attributed to decreased ridership in fiscal year 2018. Non-operating revenue increased by \$13,450,047 or 9.9 percent in fiscal year 2018 due to increases in Local Transportation and Measure A funds generated by sales tax, new SB1 funds generated by state fuel tax and registration fees and increased federal preventative maintenance funding due to a favorable formula revision at the local level.
- Total operating costs decreased by \$2,462,000 or 1.2 percent for the fiscal year ended June 30, 2018. The decrease is due to a decrease in OPEB costs/expense resulting from changes in actuarial assumptions, a decline in Paratransit costs due to quality and productivity enhancements and the reduction of security services as the District brought the majority of its contracted security guard services in house. This decrease was partially mitigated by a rise in labor costs resulting from contractual rate escalation.

#### **Overview of Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements, which are comprised of the financial statements and the notes to the financial statements.

**Basic Financial Statements** – The financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference between these items being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the District's financial position is improving or deteriorating.

The statement of revenues, expenses and changes in net position presents information showing how the District's net position changed during the fiscal year ended June 30, 2018. All changes in net position are reported as soon as the underlying event giving rise to the change occurs (such as the receipt of goods and services or submittal of claims for capital and operating revenue), regardless of the timing of related cash flows. In other words, the District reports expenses and revenues on an accrual basis rather than a cash basis. Since the District's primary function is to provide transportation services to the region's citizens and recover costs through user fees and charges, the financial statements include business-type activities. The District serves in a fiduciary capacity for the pension trust funds. The fiduciary fund statements are presented on an accrual basis and are included in these financial statements. The resources of the fiduciary funds are not available to support District programs.

The notes to the financial statements provide additional information that is essential to a full understanding of the financial data provided in the financial statements.

**Statistical Section** – In addition to the basic financial statements, this report also includes a statistical section of selected financial information over a 10-year period when available.

#### **Analysis of the Financial Statements**

The financial statements provide both short-term and long-term information about the District's overall financial condition. This analysis addresses the financial statements of the District as a whole.

As noted earlier, net position may serve as a useful indicator of a government's financial position over time. In the case of the District, assets and deferred outflows exceeded liabilities and deferred inflows by \$794,522,093.

The vast majority of the District's total net position reflects investment in capital assets, less any related debt and unused proceeds used to acquire those assets still outstanding. These capital assets are used to provide bus and light rail services to the greater Sacramento area. Consequently, these assets are not available for future spending. Although the District's net investment in its capital assets is reported net of related debt, resources are needed to repay this debt and must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities. The decrease in net position is primarily the result depreciation on District assets.

The District's negative unrestricted net position is attributed to recording its net pension liability and net OPEB liability per GASB Statement's No. 68 and No. 75, respectively.

#### SACRAMENTO REGIONAL TRANSIT DISTRICT REVENUES BY SOURCE

#### **Operating Revenue by Source**

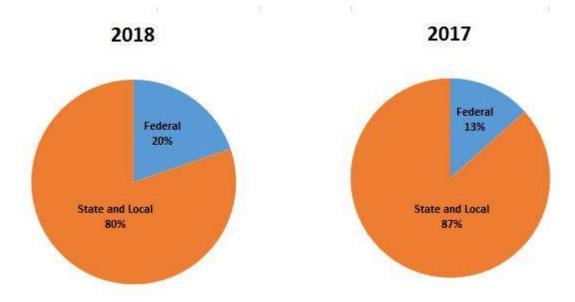

The significant changes in Operating Revenue by Source are described below:

Fares, investment income, contracted services, and other revenue decreased by a combined \$2,323,875 for the fiscal year ended June 30, 2018 or (5.4) percent. The decrease is primarily attributed to the decreased ridership and is partially mitigated by an increase in carbon credit sales due to higher market prices.

Operating assistance increased by \$12,563,055 or 10.3 percent for the fiscal year ended June 30, 2018 due to Local Transportation and Measure A funds generated by sales tax, new SB1 funds generated by state fuel tax and registration fees and increased federal preventative maintenance funding due to a favorable formula revision at the local level.

#### **Capital Revenue by Source**

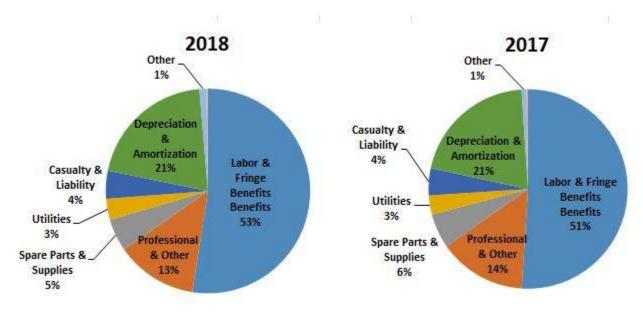

The significant changes in Capital Revenue by Source are described below:

The majority of construction and acquisition activities are funded with capital contributions from other governmental units such as federal, state, and local agencies. Capital contributions decreased by \$46,320,160 million or 68.9 percent during the fiscal year ended June 30, 2018. The decrease for the fiscal year ended June 30, 2018 is the result of a one-time contribution of Transportation Congestion Relief Program (TCRP) funds in fiscal year 2017. These funds were earmarked for the Southline Phase 2 extension project which went into revenue service in August 2015. As this extension was partially funded with the District's Farebox Revenue Bond issuance, these TCRP funds were used in the defeasance of the related debt.

## SACRAMENTO REGIONAL TRANSIT DISTRICT OPERATING EXPENSES

#### **Expenses by Source**

The significant changes in Operating Expenses by Source are described below:

Total operating costs decreased by \$2,462,000 or 1.2 percent for the fiscal year ended June 30, 2018. The decrease is due to a decrease in OPEB costs/expense resulting from changes in actuarial assumptions, a decline in Paratransit costs due to quality and productivity enhancements and the reduction of security services as the District brought the majority of its contracted security guard services in house. This decrease was partially mitigated by a rise in labor costs resulting from contractual rate escalation.

The Comprehensive Annual Financial Report ("CAFR") presentation differs from the District's operating and capital budgets in that the CAFR combines both operating and capital activities. To assist the District's Board and readers in their review, a Statement of Revenues and Expenses By Funding Designation is provided to show the District's operating and capital funds separately. As of June 30, 2018, the District's operating results were as follows: \$27,276,231 in fare revenues, \$159,444,596 in operating expenses, and \$141,340,372 in non-operating revenues, resulting in a \$9,172,007 operating surplus. Additional information regarding the Statement Of Revenues By Funding Designation can be found in the District's 2018 CAFR Issue Paper.

#### **Analysis of the District's Financial Position**

The District's net position provides information on near term inflows, outflows, and balances of spendable resources. The District is reporting net position as of June 30, 2018 of \$794,522,093, a decrease of \$27,576,194 or 3.3 percent.

#### **Capital Asset and Long-Term Debt Activity**

As of June 30, 2018, the District's investment in various capital assets, such as bus and light rail vehicles, facilities, land, buildings and equipment decreased to \$910,099,446 from \$945,167,876 representing a (3.7) percent decrease as depreciation exceeded capital acquisition activity. Additional information on capital assets can be found in Footnote 3 to the financial statements.

The District's Farebox Revenue Bonds decreased by \$175,532 for the fiscal year ended June 30, 2018 or 0.3 percent. As of June 30, 2018, the \$50,841,764 balance represents what remains of the \$86,865,000 of Farebox Revenue Bonds, Series 2012, issued in the fiscal year 2013 to primarily fund construction on the South Line Phase 2 light rail extension. The District recorded a liability and a corresponding asset of \$42,830,939 as of June 30, 2018, resulting from its participation in three Lease/Leaseback transactions. Additional information on debt activity can be found in Footnotes 4 and 6 to the financial statements.

The District's loan payable at June 30, 2018 includes \$13,988,074 originally received in November 2013 from the Public Transportation Account (PTA). The loan was extended by the State to temporarily replace a Federal Transit Administration grant that lapsed due to the application of the Federal Transit Act's "13(c)" provision to the California Public Employee Pension Reform Act of 2013 (PEPRA). Additional information on long-term debt can be found in Footnote 6 to the financial statements.

#### **Current Economic Factors and Conditions**

The District has plans for future expansion and improvement of light rail and bus services. As of June 30, 2018, the District has construction contracts and property acquisition commitments of approximately \$21,719,019.

#### **Request for Information**

Please address all questions or requests for additional information to the Finance and Treasury Department, Attention: Chief Financial Officer, Sacramento Regional Transit District, 1400 29<sup>th</sup> Street, PO Box 2110, Sacramento CA 95812-2110.

#### 1. SIGNIFICANT ACCOUNTING POLICIES

#### THE REPORTING ENTITY

The Sacramento Regional Transit District (District) was established in 1973 pursuant to the Sacramento Regional Transit District Act. The District has the responsibility to develop, maintain, and operate a public mass transit transportation system for the benefit of the residents of the Sacramento area. The District is governed by a Board of Directors appointed by the Sacramento City Council, the Sacramento County Board of Supervisors, the Elk Grove City Council, the Citrus Heights City Council, the Rancho Cordova City Council, and the Folsom City Council.

As required by Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity* and its amendment GASB No. 61, the District has reviewed criteria to determine whether other entities with activities that benefit the District should be included within its financial reporting entity. The criteria include, but are not limited to, whether the entity has a significant operational and financial relationship with the District.

The District has determined that no other outside entity meets the above criteria and, therefore, no other entity has been included as a component unit in the District's financial statements. In addition, the District is not aware of any entity that has such a relationship to the District that would result in the District being considered a component unit of that other entity.

#### **BASIS OF PRESENTATION**

The accounts of the District are organized and operated on the basis of funds, each of which is considered an independent fiscal and accounting entity. The activities of each fund are accounted for with a separate set of self-balancing statements that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position, revenues, and expenses, as appropriate. These statements distinguish between the business-type and fiduciary activities of the District. Resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The District's statements are organized into the following fund types:

#### Proprietary Fund Type

The **Enterprise Fund** distinguishes operating revenues and expenses from non-operating items. The District's operating revenues are generated directly from its transit operations and consist principally of passenger fares. Operating expenses for the transit operations include all costs related to providing transit services. These costs include labor, fringe benefits, materials, supplies, services, utilities, leases, rentals, and depreciation on capital assets. All other revenues and expenses not meeting these definitions are reported as non-operating revenues and expenses. Unrestricted net position for the enterprise fund represents the net position available for future operations.

#### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fiduciary Fund Type

The <u>Pension Trust Funds</u> are used to account for assets held by the District in a trustee capacity. The District maintains the following Pension Trust Funds:

The <u>Amalgamated Transit Union (ATU) Local 256 Retirement Plan Fund</u> (ATU Plan) accounts for the retirement funds of members of ATU Local 256.

The <u>International Brotherhood of Electrical Workers (IBEW) Local 1245 Member Retirement Plan Fund (IBEW Plan)</u> accounts for the retirement funds of members of IBEW Local 1245.

The <u>Salaried Employees Retirement Plan Fund</u> (Salaried Plan) accounts for the retirement funds of the District's salaried employees.

The ATU Plan and IBEW Plan were accounted for as one plan for accounting purposes prior to 2017. Effective July 1, 2016, separate trust agreements and financial record keeping were created for the ATU Plan and IBEW Plan based on actuarial calculations and trustee transactions. Each trust allows for accumulation of assets solely for the payment of benefits to plan members. The changes were approved and required by the Internal Revenue Service in order to establish the individual trusts.

#### MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The enterprise fund and the pension trust funds are accounted for on a flow of economic resources measurement focus. This measurement focus emphasizes the determination of increased/decreased net position. The accrual basis of accounting is used for the enterprise fund and the pension trust funds. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. District contributions to the pension trust funds are recognized in the period in which contributions are due, while benefits and refunds are recognized when due and payable in accordance with the pension trust funds plan agreements.

#### **BUDGETARY INFORMATION**

State law requires the adoption of an annual budget for the enterprise fund, which must be approved by the Board of Directors. The budget is prepared on an accrual basis. Budgetary control is maintained at several levels. The legal level of control is at the fund level. The Board of Directors authorizes budget amendments to the fund level. Line item reclassification amendments to the budget must be authorized by the responsible manager. Operating expenses are monitored by department managers who are assigned responsibility for controlling their budgets. Emphasis is placed on the total budget for the division. Capital expenses operate under the control of a project-to-date budget.

#### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### CASH AND CASH EQUIVALENTS

For purposes of the statement of cash flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash and cash equivalents.

#### **INVESTMENTS**

Investments consist of securities or other assets that the District holds primarily for the purpose of income or profit and its present service capacity is based solely on its ability to generate cash or to be sold to generate cash. Investments are recorded at fair value.

#### RESTRICTED ASSETS

Restricted assets consists of monies and other resources, the use of which is legally restricted for capital projects and debt service.

#### **RECEIVABLES**

Receivables are reported at present value less the estimated portion that is estimated to be uncollectible. As of June 30, 2018, management has estimated that no allowance for uncollectible accounts is needed.

#### **INVENTORIES**

Inventories are stated at average cost and charged to expense at the time individual items are withdrawn from inventory (consumption method). Inventory consists primarily of parts and supplies relating to transportation vehicles and facilities.

#### **CAPITAL ASSETS**

Capital assets are stated at historical cost. Donated capital assets are recorded at acquisition value. The cost of normal maintenance and repairs is charged to operations as incurred. Infrastructure, which includes light rail vehicle tracks, has been capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related properties. Depreciation is computed using the straight-line method over estimated useful lives as follows:

Buildings and improvements	30 to 50 years
Buses and maintenance vehicles	4 to 12 years
Light-rail structures and light rail vehicles	25 to 45 years
Other operating equipment	5 to 15 years

No depreciation is provided on construction in progress until construction is completed and the asset is placed in service. It is the District's policy to capitalize all capital assets with an individual cost of more than than \$5,000 and a useful life in excess of one year.

Interest is capitalized on construction in progress. Accordingly, interest capitalized is the total interest cost from the date of the borrowing until the specified asset is placed in service.

# 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **COMPENSATED ABSENCES**

The District's policy allows employees to accumulate earned unused vacation and sick leave which can be paid to employees upon separation from the District. These compensated absences are reported and accrued as a liability in the period incurred.

The current portion of the compensated absences is estimated by applying a percentage to the end of the year compensated absences liability. The percentage is calculated by dividing the vacation and sick leave that was liquidated (used/cashed out) during the year by the beginning vacation and sick leave balance.

#### FEDERAL, STATE, AND LOCAL GRANT FUNDS

Grants are accounted for in accordance with the purpose for which the funds are intended. Approved grants for the acquisition of land, buildings, and equipment are recorded as capital contributions as the related grant conditions are met. Approved grants for operating assistance are recorded as revenues in the year in which the related grant conditions are met.

Advances received on grants are recorded as a liability until related grant conditions are met. The Transportation Development Act (TDA) provides that any funds not earned and not used may be required to be returned to their source.

When both restricted and unrestricted resources are available for the same purpose, the District uses restricted resources first.

#### SELF-INSURANCE AND CLAIMS PAYABLE

The District is self-insured up to specified limits for workers' compensation claims, general liability claims, and major property damage. The District accrues the estimated costs of the self-insured portion of claims in the period in which the amount of the estimated loss is incurred.

#### **PENSION**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the ATU Plan, IBEW Plan and Salaried Plan (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds to employee contributions) are recognized when due and payable in accordance with the benefit terms.

### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### OTHER POST-EMPLOMENT BENEFITS (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the California Employers' Retiree Benefit Trust Program (CERBT) and additions to/deductions from CERBT's fiduciary net position have been determined on the same basis as they are reported by CERBT. For this purpose, CERBT recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

#### **USE OF ESTIMATES**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States (GAAP) requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### **NEW PRONOUNCEMENTS**

In 2018, the District adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* This statement requires the District to record the excess of the total OPEB liability over the assets held in qualifying trust for future OPEB benefits as a net OPEB liability on the Statement of Net Position. The change in accounting for OPEB as discussed in Note 10, resulted in the restatement of business-type activities net position at July 1, 2017 in the amount of \$19,236,381.

In 2018, the District adopted GASB Statement No. 85, Omnibus 2017, which addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits(pensions and OPEB). The requirements of this Statement will enhance consistency in the application of accounting and financial reporting requirements. Consistent reporting will improve the usefulness of information for users of state and local government financial statements.

#### 2. CASH AND INVESTMENTS

The total cash and investments as of June 30, 2018, are reported in the accompanying basic financial statements as follows:

	Enterprise Fund		Fiduciary Funds		Total
•	7 405 470	•		•	7 405 470
\$		\$	-	\$	7,435,176
	119,912		-		119,912

	\$ 	\$ 7,435,176 119,912 3,154,110 10,709,198 26,484,949 26,484,949	Fund  \$ 7,435,176 \$ 119,912 3,154,110 10,709,198	Fund Funds  \$ 7,435,176	Fund     Funds       \$ 7,435,176     \$ -       \$ 119,912     -       3,154,110     -       10,709,198     -       26,484,949     14,199,195       287,133,777     26,484,949       301,332,972

#### **INVESTMENTS**

The District pursues a program of safety, liquidity, and yield in its cash management and investment program in order to achieve maximum return on the Enterprise Fund's available funds. The Enterprise Fund's investment policy (pertaining to investment of surplus funds) is governed by an annual Board adopted policy, which is in compliance with the provisions of Articles 1 and 2 of Chapter 4 of Part 1 of Division 2 of Title 5 of the California Government Code.

# 2. CASH AND INVESTMENTS (Continued)

The following table identifies the investment types that are authorized by the California Government Code. The table also identifies certain provisions of the California Government Code that address interest rate risk, credit risk, and concentration of credit risk.

Authorized Investment Type	Maximum Maturity	Minimum Rating	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
Local Agency Bonds	5 years	N/A	None	None
U.S. Treasury Obligations	5 years	N/A	None	None
U.S. Agency Securities	5 years	N/A	None	None

JPA Pools (other investment pools)	N/A	N/A	None	None

A Retirement Board-adopted policy, the "Statement of Investment Objectives and Policy Guidelines for the Sacramento Regional Transit District Pension Plans" governs the Pension Trust Funds' investments. This policy focuses on the continued feasibility of achieving, and the appropriateness of, the Asset Allocation Policy, the Investment Objectives, the Investment Policies and Guidelines, and the Investment Restrictions.

The following table identifies the investment types that are authorized by the Retirement Board. The table also identifies certain provisions of the Investment Objectives and Policy that address interest risk, credit risk and concentration of credit risk.

# 2. CASH AND INVESTMENTS (Continued)

Authorized Investment Type	Maximum Maturity (1)	Minimum Rating (3)	Maximum Percentage of Portfolio	Maximum Investment in One Issuer

- (1) The fixed income portion of the ATU/IBEW Plan and Salaried Plan shall be limited in duration to between 75% and 125% of the benchmark.
- (2) No more than 25% of the fair value on the purchase cost basis of the total common stock portfolio (equity securities) shall be invested in a single industry at the time of purchase.
- (3) The investment managers shall maintain a minimum overall portfolio quality rating of "A" equivalent or better at all times (based on market-weighted portfolio average). Minimum quality (at purchase) must be at least 80% Baa or above.
- (4) Credit Securities and Corporate Debt include: debentures, medium-term notes, capital securities, trust preferred securities, Yankee bonds, Eurodollar securities, floating rate notes and perpetual floaters, structured notes, municipal bonds, preferred stock, private placements (bank loans and 144(a) securities), and EETCs.
- (5) Securitized investments includes: agency and non-agency mortgage-backed securities, asset-backed securities (144(a) securities), and commercial mortgage-backed securities.
- (6) Other Fixed Income Securities includes: fixed income commingled and mutual funds, futures and options, swap agreements, and reverse repurchase agreements.

#### INVESTMENT RISK FACTORS

There are many factors that can affect the value of investments such as: interest rate risk, credit risk, custodial credit risk, concentration of credit risk, and foreign currency risk. These types of risks may affect both equity and fixed income securities. Equity securities respond to such factors as economic conditions, individual company earnings performance, and market liquidity, while fixed income securities are particularly sensitive to credit risks and changes in interest rates.

# 2. CASH AND INVESTMENTS (Continued)

#### **INTEREST RATE RISK**

Interest rate risk is the risk that the value of fixed income securities will decline because of rising interest rates. The prices of fixed income securities with a longer time to maturity, measured by duration, tend to be more sensitive to changes in interest rates and, therefore, more volatile than those with a shorter duration.

The following table provides information about the interest rate risks associated with applicable investments as of June 30, 2018:

Enterprise Fund					Matu	urities in Years				
		ess than 1		1 – 5		6 – 10	N	ore than 10		Total
Collateralized Mortgage Obligations	\$	-	\$	50,019	\$	-	\$	-	\$	50,019

U.S. Government Issued Obligations		-		18,716,875		3,656,385		7,384,833		29,758,093
Asset-Backed Securities						772,959		9,331,223		10,104,182
Total Fiduciary Fund	\$	4,924,603	\$	32,403,143	\$	16,554,536	\$	51,468,637	\$	105,350,919

#### MORTGAGE PASS-THROUGH SECURITIES

These securities, disclosed as U.S. Government Agency Obligations in the interest rate risk table above, are issued by Government Sponsored Enterprises (GSEs), which are a group of financial services corporations created by the United States Congress. The GSEs include: the Federal National Mortgage Association (Fannie Mae), the Federal Home Loan Mortgage Association (Freddie Mac), and the Federal Home Loan Banks. Another institution that issues these securities is the Government National Mortgage Association (Ginnie Mae). These securities are highly sensitive to interest rate fluctuations because they are subject to early payment. In a period of declining interest rate, the resulting reduction in expected total cash flows affects the value of these securities.

#### 2. CASH AND INVESTMENTS (Continued)

#### COLLATERALIZED MORTGAGE OBLIGATIONS

Collateralized mortgage obligations (CMOs) are bonds that represent claims to specific cash flow from large pools of home mortgages. The streams of principal and interest payments on the mortgages are distributed to the different classes of CMO interests.

CMOs are often highly sensitive to changes in interest rates and any resulting change in the rate at which homeowners sell their properties, refinance, or otherwise pre-pay their loans. Investors in these securities may not only be subjected to such prepayment risk, but also exposed to significant market and liquidity risks.

#### **ASSET-BACKED SECURITIES**

Asset-backed securities generate a return based upon either the payment of interest or principal on obligations in an underlying pool. The relationship between interest rates and prepayments make the fair value highly sensitive to changes in interest rates.

#### **CALLABLE BONDS**

Although bonds are issued with clearly defined maturities, an issuer may be able to redeem, or call, a bond earlier than its maturity date. The District or the Pension Trust Funds must then replace the called bond with a bond that may have a lower yield than the original bond. The call feature causes the value to be highly sensitive to changes in interest rates. As of June 30, 2018, the District held callable bonds in the amount of \$296,636. The Pension Trust Funds held callable bonds in the amount of \$17,813,152.

#### INVESTMENT IN STATE INVESTMENT POOL AND CALTRUST

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code Section 16429 under the oversight of the Local Investment Advisory Board (LIAB). The LIAB consists of five members as designated by State statute. The value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. The District's total investment in the LAIF at June 30, 2018, was \$10,215,920.

The District is also a voluntary participant in the Investment Trust of California (CalTRUST) which is a Joint Powers Authority governed by a Board of Trustees made up of local treasurers and investment officers. The Board of Trustees sets overall policy for CalTRUST and selects and supervises the activities of the Investment Manager and other agents. The District's investments in CalTRUST are measured at net asset value (NAV), as described on page 34. As of June 30, 2018, the District's investments in CalTRUST were \$16,861,501, all of which is invested in the Short Term fund.

# 2. CASH AND INVESTMENTS (Continued)

#### **CREDIT RISK**

Fixed income securities are subject to credit risk, which is the chance that a bond issuer will fail to pay interest or principal in a timely manner, or that negative perceptions of the issuer's ability to make these payments will cause security prices to decline. The circumstances may arise due to a variety of factors such as financial weakness, bankruptcy, litigation and/or adverse political developments.

A bond's credit quality is an assessment of the issuer's ability to pay interest on the bond, and ultimately, to pay the principal. Credit quality is evaluated by one of the independent bond-rating agencies, for example Moody's Investors Services (Moody's). The lower the rating, the greater the chance, in the rating agency's opinion, that the bond issuer will default, or fail to meet its payment obligations. Generally, the lower a bond's credit rating, the higher its yield should be to compensate for the additional risk.

Certain fixed income securities, including obligations of the U.S. government or those explicitly guaranteed by the U.S. government, are not considered to have credit risk. The District's investments in LAIF and CaITRUST external investment pools are not rated.

For the fiscal year ending June 30, 2018, management has reported that the Pension Trust Funds are in adherence with the credit risk provisions of the Statement of Investment Objectives and Policy Guidelines.

The following tables provide information on the credit ratings associated with investments as of June 30, 2018:

					F	Fiduciary Fund	
	Ent	terprise Fund		Moody's			Percentage
				Ratings		Amount	of Portfolio
Moody's			Percentage		<u> </u>

				Total	\$	287,133,777	100.00%

# 2. CASH AND INVESTMENTS (Continued)

#### **CONCENTRATION OF CREDIT RISK**

Concentration of credit risk is the risk associated with a lack of diversification of having too much invested in a few individual issuers, thereby exposing the organization to greater risks resulting from adverse economic, political, regulatory, geographic, or credit developments.

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. During fiscal year 2018, the District had the following investments in one issuer that comprised more than 5% of total investments in a single issuer:

Federal National Mortgage Association \$ 749,798 Federal Home Loan Mortgage Corporation 319,284

The investment policy of the Pension Trust Funds states that an investment in domestic or international equity fund managers' securities of a single issuer shall not exceed 5% (at cost) of the value of the portfolios and/or of the company's total outstanding shares. As of June 30, 2018, the Plans had the following investments in one issuer that comprised more than 5% of Plan net assets:

Federal Home Loan Mortgage Corporation \$ 14,767,906

#### **CUSTODIAL CREDIT RISK**

Custodial credit risk for <u>deposits</u> is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party.

As of June 30, 2018, \$3,295,991 of the District's deposits were in excess of federal depository insurance (FDIC) limits and were held in collateralized accounts with securities collateralized in the financial institutions' name.

# 2. CASH AND INVESTMENTS (Continued)

The custodial credit risk for <u>investments</u> is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: the California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure public agency deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

As of June 30, 2018, the District had no investment securities exposed to custodial credit risk. The Pension Trust Funds' investment securities are not exposed to custodial credit risk because all securities are held by the Pension Trust Funds' custodian bank in the District's name.

#### **FOREIGN CURRENCY RISK**

The current District investment policy does not address foreign currency risk, which is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. As of June 30, 2018, the District does not have any deposits or investments in a foreign currency.

The Pension Trust Funds' investment policy states that international equity shall be comprised of American Depository Receipts (ADR) of non-U.S. companies, common stocks of non-U.S. companies, preferred stocks of non-U.S. companies, foreign convertible securities including debentures convertible to common stocks, and cash equivalents.

The following table provides information on deposits and investments held in various foreign currencies, which are stated in U.S. dollars. The Pension Trust Funds have foreign currency deposits and investments, which may be used for hedging purposes.

At June 30, 2018, the U.S. dollar balances organized by currency denominations for the Pension Trust Funds are as follows:

Investment Type	Foreign Currency	US	S Dollars
Cash	Swiss Franc EURO Japanese Yen	\$	5,992 450 96
	Total:	\$	6,538

# 2. CASH AND INVESTMENTS (Continued)

#### **FAIR VALUE MEASUREMENTS**

The District categorizes its fair value measurements within the fair value hierarchy established by GASB Statement No. 72. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted market prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District had the following recurring fair value measurements as of June 30, 2018:

#### 2. CASH AND INVESTMENTS (Continued)

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Net asset value (NAV) securities are valued based on the net asset value of the pooled investments. The NAV is determined by dividing the total value of the securities and other assets, less any liabilities, by the total outstanding shares of the fund.

Total investments measured at NAV	\$ 131,373,169			

- 1. CalTRUST. This type includes an investment in an external investment pool that is governed by the California Government Investment Code. CalTRUST is benchmarked against LAIF and the Barclays Short-Term Government/Corporate Index. The fair value of the investment in this type has been determined using the NAV. The NAV is calculated daily by dividing the total value of the securities and other assets, less any liabilities, by the total outstanding shares of the fund.
- 2. S&P 500 Index Fund. This type includes an investment in an S&P 500 index fund that invests to match the S&P 500® Index. The S&P 500 is made up of primarily U.S. common stocks. The fair value of the investment in this type has been determined using the NAV per unit of the investment. The NAV per unit of the investment are determined each business day. Issuances and redemptions of fund units may be made on such days, based upon the closing market value on the valuation date of the investments bought or sold and the NAV per unit of the fund.
- 3. MSCI EAFE Index Fund. This type includes an investment in the Morgan Stanley Capital International Europe, Australasia, Far East Index (MSCI EAFE) Index fund that invest to approximate as closely as practicable, before expenses, the performance of the MSCI EAFE Index over the long term. The MSCI EAFE Index is made up of primarily International stocks. The per-unit NAV of the fund is determined as of the last business day of each month and at least one other business day during the month. Issuances and redemptions of fund units may be

# 2. CASH AND INVESTMENTS (Continued)

made on such days, based upon the closing market value on the valuation date of the investments bought or sold and the NAV per unit of the fund.

- 4. International Equity Fund. This type includes an investment in an International Equity Fund that seeks total return from long-term capital growth and income, while attempting to outperform the MSCI EAFE Index over a market cycle, gross of fees. The fair value of the investment in this type has been determined using the NAV per unit of the investment. The Trust has one dealing day per month, which is the first business day, and units are issued based upon a valuation on the last business day of the preceding month.
- 5. International Small Capital Equity Fund. The fund intends to utilize a set of valuation, momentum and economic factors to generate an investment portfolio based on security selection procedures geared to assist the fund in meeting its investment objectives. The fund generally will be managed by underweighting and overweighting securities relative to the benchmark. The investment objective is to outperform the MSCI EAFE Small Cap Index over a full market cycle. The fair value of the investment in this type has been determined using the NAV per unit of the investment. The fund has one dealing day per month, which is the first business day, and notification is required at least two business days in advance of a subscription or withdrawal.
- 6. International Emerging Markets Fund. This type invests substantially all of its assets in the Emerging Market Series. The Emerging Market Series purchases a broad market coverage of larger companies associated with emerging markets, which may include frontier markets (emerging market countries in an earlier stage of development), authorized for investment by the Advisor's Investment Committee. As a non-fundamental policy, under normal circumstances, the Emerging Markets Series will invest at least 80% of its net assets in emerging markets investments that are defined in the Prospectus as Approved Market securities. The fair values of the investments in this type have been determined using the NAV per share of the investments. Investors may purchase or redeem shares of the fund on any business day.

#### RESTRICTED CASH AND INVESTMENTS

#### Enterprise Fund

At June 30, 2018, cash and investments include restricted amounts of \$26,484,949. Amounts represent monies restricted for debt reserve requirements and capital projects of \$5,064,629, developer fee projects of \$11,469,827, and grantor-approved projects of \$9,950,493.

#### Fiduciary Funds

At June 30, 2018, restricted cash and investments of the Pension Trust Funds totaled \$301,332,972. Amounts represent funds restricted for employees' retirement.

#### 3. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2018, was as follows:

	Balance July 1, 2017	Additions	Transfers	Deletions	Balance June 30, 2018
Non-Depreciated Capital Assets Land* Construction in Progress Total Non-Depreciated Capital Assets	\$ 91,147,992 31,025,370 122,173,362	\$ 43,568 5,681,275 5,724,843	\$ - (5,506,013) (5,506,013)	\$ <u>-</u>	\$ 91,191,560 31,200,632 122,392,192

Accumulated Depreciation: Buildings and Improvements Buses and Other Equipment Total Accumulated Depreciation Capital Assets Being Depreciated, Net	(318,530,364) (168,521,334) (487,051,698) 822,994,514	(25,044,547) (18,501,137) (43,545,684) (40,793,273)	5,506,013	1,718,575 1,718,575	(343,574,911) (185,303,896) (528,878,807) 787,707,254
Capital Assets, Net	\$ 945,167,876	\$ (35,068,430)	\$ -	\$ -	\$ 910,099,446

\*Land and Building – the values of the land and buildings at McClellan Park, approximately \$3.7 million and \$6.7 million, respectively, are included in these figures in anticipation of the District receiving future Fee Simple title. On January 5, 2007, a net lease and purchase agreement was recorded, giving the District a 94-year land and building leasehold and providing for a future transfer of Fee Simple title upon completion of Hazardous Materials clean-up by the United States Air Force.

Pursuant to such transaction, the District acquired a leasehold interest in multiple buildings and some exterior parking and the right to use certain common areas at McClellan Park (formerly McClellan Air Force Base). Fee Simple title to the property is projected to be transferred to the District within the next two years to five years. Therefore, the current lease in furtherance of conveyance is being reported as a fee simple ownership of the property.

Building – the value of buildings and improvements includes \$30.8 million of progress payments made pursuant to a Lease and Joint Use Agreement with Los Rios Community College District (Los Rios) that provides for the construction of a parking structure at Cosumnes River College. The District and Los Rios have agreed to make joint use of the parking structure and adjacent surface parking. The District's lease payments are the cost of construction, which have already been paid in full, and there are no future payments due. It is the responsibility of Los Rios to maintain, repair, and pay all taxes and utilities associated with the structures' operations. The term of the lease, which commenced in August 2015 with the opening of the South Sacramento Corridor Phase II light rail extension, is for a period of 51 years with the option to extend for two consecutive 5-year terms. The lease meets the conditions of a capital lease since the lease term exceeds the useful life of the asset. Los Rios commenced use of the parking garage in June 2013.

# 3. CAPITAL ASSETS (Continued

In fiscal year 2013, tax exempt Farebox Revenue Bonds were issued to finance specific transit related improvements. No interest was incurred in fiscal year 2018 as all interest payments for the years ending June 30, 2018 and 2019 are being paid out of an irrevocable trust escrow account established with the February 14, 2017 partial defeasance. The cumulative capitalized interest on these bonds is \$10,326,681 at June 30, 2018.

#### 4. LEASES

#### **OPERATING LEASES**

The District leases buildings, parking lots, and office facilities under non-cancelable operating leases. Total cost for such leases was \$203,183 for the fiscal year ended June 30, 2018. The future minimum lease payments for these leases are as follows:

Amount
\$ 53,700
50,400
48,000
44,000
196,100

#### **CAPITAL LEASES**

#### FINANCE OBLIGATIONS UNDER CAPITAL LEASE/LEASEBACK

In December 2005, January 2006, and September 2007, the District entered into separate leveraged lease/leaseback transactions over a total of 50 light rail vehicles (the "Equipment"). Each transaction was structured as a head lease of the Equipment (the "Head Lease") to a special purpose trust created by an equity investor and a simultaneous sublease of the Equipment back to the District (the "Sublease"). Under the Sublease agreements, the District retains the right to use the light rail vehicles and is also responsible for their continued maintenance and insurance. Each Sublease Agreement provides the District with an option to purchase the Equipment at the end of the applicable Sublease term on specified dates between June 2030 and September 2035 for an aggregate purchase price of \$97,932,090.

At the closing of the lease/leaseback transactions the light rail vehicles had a fair value of approximately \$223,880,000 and a net book value of \$94,822,528. The District received an aggregate of \$223,880,000 from the equity investor in full prepayment of the Head Leases. The District deposited a portion of the prepaid Head Lease payments with debt payment undertakers whose repayment obligations were guaranteed by American International Group Inc. ("AIG"). The District also deposited a portion of the prepaid Head Lease payments with an equity payment undertaker whose obligations, which were collateralized with U.S. agency securities and guaranteed by AIG, matured at such times and in such amounts that correspond to the purchase option payment dates and amounts for the Equipment under each Sublease. Although these escrows do not represent a legal defeasance of the District's obligations under the

#### 4. LEASES (Continued)

Subleases, management believes that these transactions were structured in such a way that it was not probable that the District would need to access other monies to make Sublease payments.

In addition, the District purchased surety bonds from Ambac Assurance Corporation ("Ambac"), a bond insurance company, to guarantee certain termination payments that are in the nature of stipulated damages, in the event the lease/leaseback transactions were terminated, in whole or in part, prior to each Sublease expiration payment date.

The lease/leaseback transactions resulted in a net cash gain to the District of \$11,820,731, which was deferred and is being amortized over the lives of the Subleases. In the fiscal year ending June 30, 2018, the District amortized \$419,763 of such deferred gain. At June 30, 2018, the District had a balance of \$6,926,086 as deferred gain on the lease/leaseback transactions.

The District's lease/leaseback transactions have been recorded similar to capital leases in that the present value of the future lease payments has been recognized on the Statement of Net Position as a Lease/Leaseback payable.

The original terms of the lease/leaseback transactions required the District to replace (1) AIG as debt payment undertaker if its ratings were to fall below "A3" from Moody's Investor Services ("Moody's") or "A-" from Standard & Poor's Rating Group ("S&P"), (2) AIG as equity payment surety provider if its ratings were to fall below "Aa3" from Moody's or "AA-" from S&P, in each case within a specified period of time following demand by the equity investor.

In July 2011, the lease/leaseback transactions were restructured to (1) eliminate any minimum rating requirements applicable to Ambac, (2) reduce the minimum rating requirement applicable to AIG as debt payment undertaker guarantor to "Baa3" from Moody's and "BBB-" from S&P, (3) replace AIG as equity payment undertaker and guarantor with U.S. Treasury Obligations that matured by such dates and in such amounts that correspond to the purchase option dates and amounts for the Equipment under each Sublease and (4) extend the time periods for any of the District's remaining replacement obligations to one year. No payments under the debt payment undertaking agreements remain.

Under the terms of the July 2011 restructuring, the District was required to replace the U.S. Treasury Obligations if the rating fell below "Aaa" from Moody's or "AAA" from S&P. In August 2011, S&P downgraded the U.S. Treasury Obligation to "AA+". On October 16, 2013, the equity investor, District and Ambac agreed to amend the minimum rating requirements for the U.S. Treasury Obligations to "Aa2" from Moody's and "AA" from S&P (the "October Amendment").

As a result of the October Amendment, the District is in full compliance with the terms of the lease/leaseback transactions.

As U.S. Treasury Obligations, held in trust, will mature to satisfy the purchase option for the Equipment under each Sublease, the District has recorded the amounts held by the trustee, US Bank, as Deposits for Lease/Leaseback Payables on the Statements of Net Position. The obligation under the lease agreements and the investments held to pay the lease/leaseback obligation are adjusted annually to reflect the change in the net present value of the related sublease and buy-out options. At June 30, 2018, the balance of this deposit was \$42,830,939.

# 4. LEASES (Continued)

The following table sets forth the aggregate amounts due under the sublease agreements:

Future minimum payments due in fiscal years	
ending June 30:	Amount
2019	\$ -
2020	-
2021	-
2022	-
2023	-
2024-2028	-
2029-2033	14,252,635
2034-2036	 83,679,455
Total future minimum payments	97,932,090
Less: imputed interest	 (55,101,151)
Present value of minimum lease payments	\$ 42,830,939

#### 5. LINE OF CREDIT

For the purpose of short-term borrowing needs, the District has an unsecured line of credit (LOC) agreement with U.S. Bank National Association. The purpose of the line of credit is to meet the District's liquidity needs stemming from the timing of cash receipts from Federal and State awards. The line is subject to a \$27,000,000 limit and matures on September 28, 2019. The interest rate for the LOC with U.S. Bank for the used portion of the LOC was at LIBOR plus 1.40% and the unused portion was a fixed 0.65% for the fiscal year ending June 30, 2018.

As of June 30, 2018, the District reported compliance with the short-term borrowing requirements stated under the California Government Code and with the financial covenants required by U.S. Bank.

The LOC balance at June 30, 2018, is summarized as follows:

Beginning Balance	\$ 16,000,000
Draws	71,300,000
Payments	(72,800,000)
Ending Balance	\$ 14,500,000

#### 6. LONG-TERM DEBT

#### FAREBOX REVENUE BONDS (Revenue Bonds), SERIES 2012

In November 2012, the District issued Revenue Bonds totaling \$86,865,000 with interest rates ranging from 3% to 5%. The Revenue Bonds were issued to (i) finance a portion of the costs of an extension to the District's light rail system and related improvements and acquisition of certain buses and other vehicles and other capital projects, and to (ii) refund all of the outstanding Farebox Revenue Certificates of Participation (COP), 2003 Series-C. The Revenue Bonds are a special obligation of the District and are secured solely by a pledge of farebox revenues through 2042.

The Series 2012 Bonds maturing on and after March 1, 2021, shall be subject to redemption prior to their respective stated maturities, at the option of the District, from any source of available funds. The Bonds maturing on March 1, 2036, will be subject to redemption in part, by lot, from mandatory sinking account payments required by the Indenture on each March 1 on or after March 1, 2033, at the principal amount of the Series 2012 Bonds to be redeemed plus accrued interest, if any. The Series 2012 Bonds maturing on March 1, 2042, will be subject to redemption in part, by lot, from mandatory sinking account payments required by the indenture on each March 1 on or after March 1, 2037, at the principal amount of the Series 2012 Bonds to be redeemed plus accrued interest, if any.

As of June 30, 2018, debt service requirements to maturity are as follows:

Fiscal Year Ending June 30:	 Principal	Interest	Total
2019	\$ - (	\$ -	\$ -
2020	862,500	1,711,575	2,574,075
2021	1,210,000	2,224,600	3,434,600
2022	1,270,000	2,164,100	3,434,100
2023	1,330,000	2,100,600	3,430,600
2024-2028	7,725,000	9,435,750	17,160,750
2029-2033	9,840,000	7,321,400	17,161,400
2034-2038	12,285,000	4,870,500	17,155,500
2039-2042	12,165,000	1,558,250	13,723,250
Total	\$ 46,687,500	\$ 31,386,775	\$ 78,074,275

As of June 30 2018, the unamortized premium associated with the Revenue Bonds was \$4,154,264. The amortization of the premium for fiscal year ended June 30, 2018, was \$175,532.

As of June 30, 2018, the Districted reported compliance with all financial covenants of the Farebox Revenue Bonds.

#### 6. LONG-TERM DEBT (Continued)

#### **LOANS PAYABLE**

Loans payable at June 30, 2018, include \$13,988,074 received in November 2013 from the Public Transportation account (PTA) in the State Transportation Fund pursuant to Section 2 of Chapter 527, Statutes of 2013 (AB 1222). The loan was extended by the State to temporarily replace a Federal Transit Administration grant that lapsed due to the application of the Federal Transit Act's "13(c)" provision to the California Public Employee Pension Reform Act of 2013 (PEPRA). The federal funds remain appropriated and the issue is in litigation. The loan is due on or before 60 days after either a federal district court rules that the US Department of Labor erred in determining that application of PEPRA precludes certification under subsection (b) of Section 5533 of Title 49 of the United States Code or certification by the US Department of Labor that results in the receipt of the federal grant funds but, in any case, no later than January 1, 2021. The PTA loan accrues interest at the rate earned by the State Pooled Money Investment Account at the time of the loan which was 0.266%. As of June 30, 2018, the principal balance of the PTA loan was \$13,988,074 and accrued interest was \$175,499.

### **CHANGES IN LONG-TERM LIABILITIES**

Long-term liability activity for the fiscal year ended June 30, 2018, was as follows:

	 Beginning Balance	 Additions	 Deductions Ending Balance		Due within One Year		
2012 Revenue Bonds Issuance Premium Total 2012 Revenue Bonds	\$ 46,687,500 4,329,796 51,017,296	\$ - - -	\$ (175,532) (175,532)	\$	46,687,500 4,154,264 50,841,764	\$ 	175,532 175,532
Compensated Absences Loans Payable Advances from Other Governments Claims Payable Lease/Leaseback Payable	9,932,575 13,988,074 23,618,224 22,497,838 40,740,724	7,907,728 - 3,226,975 6,596,226 2,090,215	(7,524,074) - (5,986,315) (11,101,437)		10,316,229 13,988,074 20,858,884 17,992,627 42,830,939		7,791,551 - 5,261,377 3,099,693
Long-Term Liabilities	\$ 161,794,731	\$ 19,821,144	\$ (24,614,700)	\$	157,001,175	\$	16,328,153

#### 7. FUNDING SOURCES

The District is dependent upon funds from several sources to meet its operating, maintenance, and capital requirements. The receipt of such funds is controlled by statutes, the provisions of various grant contracts, regulatory approvals, and, in some instances, is dependent on the availability of grantor and local matching funds.

#### **FEDERAL GRANTS**

Federal grant funding is obtained from the Federal Transit Administration (FTA), Federal Highway Administration (FHWA) and Department of Homeland Security. Federal funding for the fiscal year ended June 30, 2018, is comprised of the following:

Operating assistance grants:	
FTA Section 5307	\$ 23,847,772
FTA Section 5337	13,804,359
FTA Section 5339	2,244,772
FTA Section 5309	1,807,718
Dept of Homeland Security	41,260
Total Federal operating assistance grants	41,745,881
Capital grants:	
FTA Section 5307	2,090,291
FTA Section 5312	870,000
FTA Section 5309	688,204
FTA Section 5339	299,943
FTA Section 5317	123,428
Federal Highway Planning and Construction	60,652
Total Federal capital grants	 4,132,518
Total Federal operating and capital grants	\$ 45,878,399

The FTA retains its interest in assets acquired with Federal funds should they be disposed of before the end of their economic lives or not used for public transit.

Under provisions of Section 5307 of the Urban Mass Transportation Act of 1964, as amended, Federal resources are made available for planning, capital, and operating assistance, subject to certain limitations. Funds are apportioned annually based on a statutory formula and are available for a period of five years following the close of the fiscal year for which they were apportioned. Any unobligated funds at the end of such period revert to the federal government. In general, funds received for operations must, at a minimum, be matched 50% with local contributions and funds for capital projects must be matched 20% with local contributions.

# 7. FUNDING SOURCES (Continued)

#### STATE AND LOCAL GRANTS

The District qualifies for and receives distributions from Local Transportation Funds and State Transit Assistance under claims approved by the Sacramento Area Council of Governments (SACOG) in accordance with provisions of the Transportation Development Act (TDA).

State and local grant funding for the fiscal year ended June 30, 2018, is comprised of the following:

Operating assistance grants: Measure A Sales Tax Revenue Local Transportation Funds State Transit Assistance Senate Bill 1 - State of Good Repair Low Carbon Transit Operations Program Total state and local operating assistance grants	\$ 41,446,332 40,966,707 7,744,735 2,306,188 875,171 93,339,133
Capital grants: City of Sacramento City of West Sacramento Proposition 1B State Transit Assistance UTDC Donated Light Rail Vehicle Parts Developer Fees Traffic Congestion Relief Program Transit and Intercity Rail Program California Department of Transportation Other Total state and local capital grants Total state and local grants	 3,386,275 3,364,768 2,691,596 2,552,916 2,346,128 1,003,509 598,702 456,715 343,317 59,618 16,803,544 110,142,677

# 7. FUNDING SOURCES (Continued)

#### **ADVANCES FROM OTHER GOVERNMENTS**

Advances from other governments at June 30, 2018, consisted of the following:

Developer Fees	\$ 11,446,735
Proposition 1B	4,997,102
Environmental Council of Sacramento (ECOS)	1,693,695
Sacramento County	1,229,721
Sacramento Emergency Clean Air & Transportation (SECAT)	1,210,184
Sacramento Municipal Utility District	252,860
Low Carbon Operations Transit Program	21,724
Other	6,863
Total advances from other governments	\$ 20,858,884

The advances from other governments is restricted cash from grants, fees from area developers designated specifically for transit improvements, and lawsuit settlement proceeds received, but not yet spent; utilized principally for capital projects. Management makes an estimate of the amount that will be recognized in the next fiscal year and classifies this amount as current.

# PUBLIC TRANSPORTATION MODERNIZATION IMPROVEMENT AND SERVICE ENHANCEMENT ACCOUNT (PTMISEA)

In November 2006, California voters passed a bond measure enacting the Highway Safety, Traffic Reduction, Air Quality and Port Security Bond Act of 2006. Of the \$19.925 billion of state general obligation bonds authorized, \$4.000 billion was set aside by the State as instructed by statute as the PTMISEA. These funds are available to the California Department of Transportation for intercity rail projects and to transit operators in California for rehabilitation, safety or modernization improvements, capital service enhancements or expansions, new capital projects, bus rapid transit improvements or for rolling stock procurement, rehabilitation or replacement. PTMISEA revenues are included as part of Proposition 1B state and local capital contributions on the Statement of Revenues, Expenses, and Changes in Net Position. PTMISEA activity for the fiscal year ended June 30, 2018, was as follows:

Revenues	\$ 1,466,387
Expenditures:	
Bus Maintenance Facility	(543,663)
UTDC Retrofit	(468,694)
Replace Non-Revenue Vehicles	(345,080)
LRT Crossing Enhancements	(106,824)
ADA Transit Plan Improvements	(29,750)
29th Street Station Enhancements	(13,813)
Fulton Bus Shelter	(12,423)
Downtown/Riverfront Streetcar	(957)
Fulton Bus Shelter	(401)
Light Rail Vehicle Midlife Overhaul	(284)
Connect Card	361
South Line Phase 2 Extension	55,141
Net Activity	\$ -

#### 8. FARE RECOVERY RATIO

The District is required to maintain a fare revenue-to-operating expense ratio of 23% in accordance with the Transportation Development Act. To demonstrate compliance with this Fare Recovery Ratio, the District has supplemented, per California Public Utilities Code Section 99268.19, a portion of its Local Measure A funds in order to meet the required ratio. The fare revenue-to-operating expense ratio for the District is calculated as follows for the fiscal year ended June 30, 2018:

Fare Revenues Local Fund Supplementation	\$	27,276,231
(Measure A)		8,320,951
Total Revenues	\$	35,597,182
	-	
Operating Expenses	\$	209,821,275
Less Allowable Exclusions:		
Depreciation		(43,125,921)
Paratransit Operations	\$	(11,924,999)
Net Operating Expenses	\$	154,770,355
Fare Revenue Ratio		23.00%

#### 9. PENSION PLANS

#### **DESCRIPTION OF PLANS**

The District contributes to three single-employer defined benefit pension plans:

- The Sacramento Regional Transit District Retirement Plan for members of ATU, Local 256 (ATU Plan),
- The Sacramento Regional Transit District Retirement Plan for members of IBEW Local 1245 (IBEW Plan), and
- The Sacramento Regional Transit District Retirement Plan for Salaried Employees (Salaried Plan) who are members of the:
  - Administrative Employees' Association (AEA),
  - Management and Confidential Employees Group (MCEG), and
  - American Federation of State, County and Municipal Employees (AFSCME), which is further broken down into the following groups for bargaining and contract purposes:
    - AFSCME-Technical
    - □ AFSCME-Supervisors

As discussed in Note 1 to the financial statements, the ATU Plan and IBEW Plan were accounted for as one plan for accounting purposes prior to 2017. Effective July 1, 2016, separate trust agreements and financial record keeping were created for the ATU Plan and IBEW Plan based on actuarial calculations and trustee transactions. Each trust allows for accumulation of assets solely for the payment of benefits to plan members. The changes were approved and required by the Internal Revenue Service in order to establish the individual trusts. Prior to July 1, 2016, the ATU Plan and the IBEW Plan were accounted for by the District as one plan (collectively, the ATU/IBEW Plan).

The plans are administered by the District under the direction of five separate Retirement Boards of Directors, each representing one of the aforementioned bargaining and employee groups of ATU, IBEW, AEA, AFSCME and MCEG. The District's administrative functions include: payments to retirees, accounting, financial management, Plan document management, correspondence with retirees, pension calculations, and other administrative tasks. The Retirement Boards of Directors are responsible for investment decisions, approving the annual actuarial valuation and annual contributions, approving the annual audited financial statements, approving retirements, and other tasks. All expenses incurred in the administration of the plans are paid by the plans.

# 9. PENSION PLANS (Continued)

Each Retirement Board is comprised of equal representation; District Management by a member from the District's Board of Directors and General Manager, and two members from the represented group. Each Board member serves a four year term, with no limit on the amount of terms that can be served. The ATU, IBEW and Salaried Plans issue a publicly available combined financial report that includes audited financial statements and required supplementary information. The report may be obtained by writing to Sacramento Regional Transit District, Attention: Chief Financial Officer, P.O. Box 2110, Sacramento, CA 95812, or online at www.sacrt.com.

Change in Bargaining Group – Changes in bargaining groups occur when an active employee of any Plan accepts a new position with a bargaining unit that participates in another Plan. When a change in bargaining group occurs contributions made on behalf of that employee must be assessed to determine if the assets need to be moved to the new Plan. Amounts related to a change in bargaining group are recorded upon final verification and approval of calculated amounts by the District and the related bargaining group's retirement board. During the year ending June 30, 2018 assets were moved from the ATU Plan to the Salaried Plan in the amount of \$2,638,467. The effects of the change can be seen on the Statement of Changes in Net Position as Change in Bargaining Group within the additions and deductions categories.

**Plan Tier Definition** – As a result of labor negotiations and the court ruling on the Public Employees' Pension Reform Act (PEPRA), Tier 2 was created in the ATU, IBEW and Salaried Plans, as well as a Tier 3 for the ATU only. The Tier effective date was directly affected by labor negotiations and whether the union/employee group was under a current Memorandum of Understanding (MOU). As of December 30, 2014, the ATU, IBEW, and AFSCME-Technical unions were bound by a current MOU. Whereas, the AEA, MCEG, and AFSCME-Supervisors had not settled negotiations and were not bound by a current MOU; therefore, PEPRA was required to be implemented for these groups.

- ATU Tier 1 consists of all employees hired on or before December 31, 2014, Tier 2 consists of all employees hired on or after January 1, 2016, Tier 3 consists of all employees hired during the time period January 1, 2015 to December 31, 2015.
- AEA, MCEG, and AFSCME-Supervisors Tier 1 consists of all employees hired on or before December 30, 2014, Tier 2 consists of all employees hired on or after December 31, 2014.

Tier 1 and Tier 3 are closed to new entrants as all newly hired employees will be placed into the respective Tier 2 plans.

# 9. PENSION PLANS (Continued)

**Plan Termination** – If the ATU, IBEW or Salaried Plans are terminated, the Plan's net position will first be applied to provide for retirement benefits to retired members. Any remaining net position will be allocated to other members, oldest first both active and inactive, on the basis of the actuarial present value of their benefits.

#### **BENEFITS PROVIDED**

Contributions to the ATU, IBEW and Salaried Plans are authorized or amended by the Retirement Boards based on an actuarial basis. The authority under which benefit provisions are established and amended rests with the District's Board of Directors as a result of labor negotiations.

The ATU, IBEW and Salaried Plans provide defined pension, disability, and death benefits to employees who are members of the ATU, IBEW, AEA, MCEG, AFSCME-Technical, and AFSCME-Supervisors bargaining units.

The benefits for Tier 1, Tier 2, and Tier 3 members begin at retirement and continue for the participant's life with no cost of living adjustment. The participant can elect to receive reduced benefits with continuing benefits to a beneficiary after death.

**Disability Benefits** – A participant is eligible for a disability benefit if the participant is unable to perform the duties of his or her job with the District, cannot be transferred to another job with the District, and has submitted satisfactory medical evidence of permanent disqualification from his or her job. Members are required to be vested in their respective union or employee group to qualify for disability retirement. The disability benefit is equal to the retirement allowance, as defined by the ATU, IBEW or Salaried Plan, multiplied by service accrued through the date of disability. The disability benefit cannot exceed the retirement benefit. The benefit begins at disability and continues until recovery or for the participant's life unless the participant elects to receive reduced benefits with continuing benefits to a beneficiary after death.

**Pre-Retirement Death Benefit** – A participant's surviving spouse is eligible for a preretirement death benefit if the participant is vested, based on the respective bargaining agreements. The pre-retirement death benefit is the actuarial equivalent of the normal retirement benefit, as if the participant retired on the date of death. The death benefit begins when the participant dies and continues for the life of the surviving spouse.

ATU, IBEW and Salaried Plan membership for Tier 1, Tier 2 and Tier 3 at June 30, 2018, consisted of:

Retirees and beneficiaries currently receiving benefits	342
Terminated members entitled to but not yet collecting benefits	337
Current active members	1,009
	1,688_

# 9. PENSION PLANS (Continued)

Table 1 below presents a summary of the retirement benefits for Tier 1 and Tier 3 employees for each of the employee groups represented by the ATU, IBEW and Salaried Plans for fiscal year ending June 30, 2018.

Table 1

TIER 1 & TIER 3	ATU Plan	IBEW Plan	Salaries Plan			
Employee Union/ Groups	ATU	IBEW	AFSCME - Technical	AFSCME - Supervisors	AEA	MCEG
Plan Terms	MOU	MOU	MOU	MOU	MOU	MOU
Vesting Period: Years of Service - % Vested	10 - 100%	5 - 100%	5 - 20% 6 - 40% 7 - 60% 8 - 80% 9 - 100%	9 - 100%	5 - 100%	5 - 100%
Wages used in pension calculation	Ranges from 48 to 60 months depending on date of separation. See Plan documents for specific provisions.					
Vacation and sick leave sell back towards pension	Allowable	Allowable	Allowable	Allowable	Allowable	Allowable
calculation Disability Retirement Westing required  Equal to applicable retirement age multiplier or 2% if age and service are not Vesting required				re not met.		

# 9. PENSION PLANS (Continued)

Table 2 below presents a summary of the retirement benefits for Tier 2 employees for each of the employee groups represented by the ATU, IBEW and Salaried Plans effective for fiscal year ending June 30, 2018.

Table 2

TIER 2	ATU Plan	IBEW Plan	Salaried Plan			
Employee Unions/Groups	ATU	IBEW	AFSCME - Technical	AFSCME - Supervisors	AEA	MCEG
Plan Terms	PEPRA	PEPRA	PEPRA	PEPRA	PEPRA	PEPRA
Vesting Period: Years of Service - % Vested	5 - 100%	5 - 100%	5 - 100%	5 - 100%	5 - 100%	5 - 100%
Wages used in pension calculation	Highest consecutive 48 months					
Vacation and sick leave sell back towards pension	Not Allowable	Not Allowable	Not Allowable	Not Allowable	Not Allowable	Not Allowable
calculation Disability Retirement Multiplier	If allowable, equal to applicable retirement age multiplier or 2% if age and service are not met. Vesting required.				e not met.	

The retirement ages, years of service and pension calculation multipliers vary by employee union/group. The multipliers and years of service range from 2% at age 55 or 25 years of service to 2.5% at age 60 or 30 or more years of service for Tier 1 and Tier 3. Tier 2 retirement ages and multipliers are mandated by PEPRA as follows, 2% at age 62 and 2.5% at age 67. There were no changes to benefits during the year ended June 30, 2018.

#### **Contributions**

The ATU, IBEW and Salaried Plans' funding policies provide for actuarially determined periodic contributions. Contribution rates for retirement benefits are determined using the entry age normal cost method and are approved by the Retirement Boards of Directors annually. During the fiscal year ended June 30, 2018, the District made 100% of the actuarially determined contributions. Contributions to the ATU, IBEW, and Salaried Plan for fiscal year ended June 30, 2018, were \$7,863,420, \$3,195,912, and \$7,669,178, respectively.

# 9. PENSION PLANS (Continued)

Table 3 presents the employer and employee contribution rates and for Tier 1 and Tier 3 employees as of June 30, 2018:

Table 3

	Tier 1		Tier 3		
<b>Employee Group</b>	Employer	<b>Employee</b>	<b>Employer</b>	<b>Employee</b>	
ATU	27.04%	-	24.04%	3.00%	
IBEW	25.31%	-	-	-	
AEA, MCEG and					
AFSCME	32.52%	-	-	-	

As of January 1, 2015, all new employees were required to contribute to their pension based upon the terms of the bargaining groups MOU or based on PEPRA. As of January 1, 2018 and April 1, 2018 the AFSMCE-Technical and IBEW groups, respectively, transitioned to PEPRA contributions and reuqirements. Table 4 presents the employer and employee contribution rates for Tier 2 employees as of June 30, 2018:

Table 4

	Tier 2		
<b>Employee Group</b>	Employer	<b>Employee</b>	
ATU	20.54%	6.50%	
IBEW	20.06% to 23.81%	1.50% to 5.25%	
AFSCME - Technical	27.27% to 31.02%	1.50% to 5.25%	
AEA, MCEG, and AFSCME - Supervisors	27.27%	5.25%	

The employee contributions to the ATU, IBEW, and Salaried Plan for the fiscal year ended June 30, 2018, were \$337,009, \$103,415, and \$143,094, respectively.

The employee contribution rates calculated in compliance with PEPRA, for June 30, 2018, were actuarially determined as part of the valuations dated July 1, 2016. Employer contribution rates are calculated and change annually for all tiers. The employee contribution rates for Tier 2 employees is also calculated annually but only changes if the total normal cost changes by more than 1 percent of payroll.

# 9. PENSION PLANS (Continued)

#### **NET PENSION LIABILITY**

The District's net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016, and projected to June 30, 2017 for the ATU, IBEW and Salaried Plans. Update procedures were used to roll forward the total pension liability to the measurement date. The reporting date is June 30, 2018, for all Plans.

**Actuarial Assumptions** – The total pension liability in the June 30, 2017 valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement for the ATU, IBEW, and Salaried Plans. The actuarial assumptions were consistent for fiscal years ending June 30, 2017 and 2018:

Inflation 3.15% Amortization growth rate 3.15%

Salary Increases 3.15%, plus merit component Investment Rate of Return 7.50%, net of investment expense

Discount Rate 7.50%

Mortality rates were based on the RP-2014 Combined Blue Collar Mortality, adjusted by 115% for males and 130% for females, with generational projection using Scale MP-215 for the ATU and IBEW Plan, and the RP-2014 Retired Pensioners Mortality, adjusted by 130% for females, with generational projection using Scale MP-2015 for the Salaried Plan.

The actuarial assumptions used in the July 1, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2015.

### 9. PENSION PLANS (Continued)

For the ATU, IBEW, and Salaried Plans, the long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized below:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity Large Cap	32.00%	8.85%
Domestic Equity Small Cap	8.00%	9.85%
International Equity Developed Large Cap	14.00%	9.55%
International Equity Developed Small Cap	5.00%	9.55%
International Equity Emerging	6.00%	11.15%
Domestic Fixed Income	35.00%	3.05%
Total	100.00%	

**Discount rate** – The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that the employee contributions will be made at the current contribution rate and that the District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

### 9. PENSION PLANS (Continued)

### **CHANGES IN THE NET PENSION LIABILITY**

Table 5 below presents the changes in the net pension liability for the ATU Plan as of June 30, 2018:

Table 5

	ATU Plan Increase (Decreases)

**Pension plan fiduciary net position** – Detailed information about the pension plan's fiduciary net position is available in the separately issued Retirement Plans for the Sacramento Regional Transit District Employees financial report. The Plan assets, for investing purposes, have been comingled to reduce investment expenses.

### 9. PENSION PLANS (Continued)

### PENSION EXPENSE AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS

The total pension expense recognized by the District for the ATU, IBEW and Salaried Plans for the fiscal year ended June 30, 2018, was \$10,116,495, 2,864,028 and \$7,476,241, respectively, totaling \$20,456,764. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	_	erred Outflows f Resources	Deferred Inflows of Resources		
Net difference between projected and actual					
earnings on pension plan investments:	Φ	0.000.000	Φ.		
ATU Plan IBEW Plan	\$	2,800,030	\$	-	
Salaried Plan		1,015,741 981,476		-	
Differences between expected and actual		901,470		-

Salaried Plan		232,715		408,097	
Total of inflows and outflows					
before employer contributions		14,008,157		7,179,212	
Employer contributions subsequent to the					
measurement date of the net pension liability:					
ATU Plan		7,863,420		-	
IBEW Plan		3,195,912		-	
Salaried Plan		7,669,178		-	
Total employer contributions		18,728,510			
Total deferred inflows and outflows	\$	32,736,667	\$	7,179,212	

### 9. PENSION PLANS (Continued)

Deferred outflows of resources resulting from contributions made subsequent to the measurement date in the amount of \$18,728,510 will be recognized as a reduction of the net pension liability in the year ending June 30, 2018. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

			Salaried	
Year ended June 30:	ATU Plan	IBEW Plan	Plan	Total
2019	\$ 243,044	\$ 898,722	\$ 352,947	\$ 1,494,713

Total	\$ 1,046,748	\$ 4,025,610	\$ 1,756,587	\$ 6,828,945

### PAYABLE TO THE PENSION PLAN

At June 30, 2018, the District reported a receivable from the ATU and IBEW Plans of \$327,866 and \$56,407, respectively. At June 30, 2018 the District reported a payable to the Salaried Plan of \$75,846. The receivables and payable to and from the Plans are the differences between required contributions and payments to vendors made by the District on behalf of the Plans.

### 10. OTHER POST-EMPLOYMENT BENEFITS

### **GENERAL INFORMATION ABOUT THE OPEB PLAN**

Plan Description - The District's defined benefit OPEB plan provides OPEB under provisions of District Personnel Rules and Procedures, Collective Bargaining Agreements and certain Calpers requirements for active and retired members of AEA, AFSCME, MCEG, ATU, and IBEW. The District established an IRC Section 115 irrevocable trust under the California Employers' Retiree Benefit Trust Program (CERBT) for the purpose of (i) receiving employer contributions to prefund OPEB for retirees and their beneficiaries, (ii) investing contributed amounts and income therein, and (iii) disbursing contributed amounts and income therein, if any, to pay for costs of administration of the fund and to pay for OPEB in accordance with the terms of the District's plan. The funds in the CERBT are administered by the California Public Employees' Retirement System (CalPERS) as an agent multiple-employer plan. Benefit provisions are established and may be amended by District labor agreements which are approved by the Board of Directors.

**Benefits Provided -** The District provides medical care benefits for active and retired members of AEA, AFSCME, MCEG, ATU, and IBEW. The District also provides dental care and life insurance benefits to active and retired members of the AEA, AFSCME, and MCEG. The benefits are mandated by contracted agreements between the District and the respective employee groups and may be amended at any time. Employees and their dependents may become eligible for such benefits if the employees reach normal retirement age while working for the District. Medical, dental, and life insurance benefits for active employees are provided through an insurance company whose premiums are based on the benefits paid during the year.

The District contributes 90% or 92% of the cost for retired members of AEA, AFSCME, and MCEG hired after 1993, and 100% for plan members hired prior to 1994. The District is required to contribute the unequal minimum required contribution set under the Public Employees' Medical & Hospital Care Act (PEMHCA) for retired members of the ATU and IBEW.

**Employees Covered by Benefit Terms -** At June 30, 2018 the following employees were covered by the benefit terms:

Retirees and beneficiaries currently receiving benefits	342
Terminated members entitled to but not yet collecting benefits	337
Current active members	1,009
	1,688

### 10. OTHER POST-EMPLOYMENT BENEFITS (Continued)

**Contributions -** The obligation of the District to contribute to the plan is established by the Board of Directors. The District currently prefunds the OPEB plan at 100% of the actuarially determined contribution. For the year ended June 30, 2018, the District's average contribution rate was 4.61 percent of covered-employee payroll. Employees are not required to contribute to the plan.

### **NET OPEB LIABILITY**

The District's net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined an actuarial valuation dated July 1, 2017.

**Actuarial Assumptions -** The total OPEB liability in the July 1, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods in the measurement:

General Inflation Rate 2.75 percent
Wage Inflation 3.0 percent
Salary increases 3.25 percent

Investment rate of return 7.0 percent, net of OPEB plan investment expense, including inflation Healthcare cost trend rates Medical: 7.0 percent for 2018, decreasing 0.5 percent per year to an

ultimate rate of 4.5% for 2025 and later years

Dental and required PEMHCA minimum employer contribution: 4.5%

per year

Mortality rates were based on the MacLeod Watts Scale 2017 which was developed by the District's actuary from a blending of data and methodologies found in two published sources: (i) the Society of Actuaries Mortality Improvement Scale MP-2016 Report, published in October 2016 and (ii) the demographic assumptions used in the 2016 Annual Report of the Board of Trustees of the Federal Old-Age and Survivors Insurance and Federal Disability Insurance Trust Funds, published June 2016.

Demographic actuarial assumptions used in the July 1, 2017 valuation were based on the July 1, 2015 valuations of the retirement plans covering District employees and are based on the 2016 actuarial experience study of the District's retirement plans using data from 2011 to 2015, except for a different basis (MacLeod Watts Scale 2017) used to project future mortality improvements.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of exected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combind to produce the long-term expected rate of return

### 10. OTHER POST-EMPLOYMENT BENEFITS (Continued)

by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major class are summarized in the following table:

		Long-Term Expected
Asset Class	Target Allocation	Real Rate of Return*
Global Equity	57%	5.71%
Fixed Income	27%	2.40%
REITs	8%	7.88%
Treasury Inflation Protected Securities	5%	2.25%
Commodities	3%	4.95%
	100%	

<sup>\*</sup> Based on 2014 Capital Market Assumptions per CalPERS CERBT Program

**Discount Rate** – The discount rate used to measure the total OPEB liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that the District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

### **CHANGES IN THE NET OPEB LIABILITY**

	Increase (Decreases)						
		Total OPEB Liability (a)		Plan Fiduciary Net Position (b)		Net OPEB Liability (a) - (b)

### 10. OTHER POST-EMPLOYMENT BENEFITS (Continued)

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate – The following presents the net OPEB liability of the District, as well as what the Districts net OPEB liability would be if it were calculated used a discount rate that is 1-percentage-point lower (6.0 percent) or 1-percentage-point higher (8.0 percent) than the current discount rate:

	1'	% Decrease	Di	scount Rate	•	1% Increase
		6.0%		7.0%		8.0%
Net OPEB liability	\$	27,301,620	\$	21,604,367	\$	16,816,658

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates – The following presents the net OPEB liability of the District, as well as what the Districts net OPEB liability would be if it were calculated used a discount rate that is 1-percentage-point lower (6.0 percent) or 1-percentage-point higher (8.0 percent) than the current discount rate:

	<b>Current Trend</b>	<b>Current Trend</b>	<b>Current Trend</b>
		7.5% Medical /	
	-1.0%	4.5% Dental	+1.0%
Net OPEB liability	\$ 16,384,787	\$ 21,604,367	\$ 28,246,584

**OPEB Plan Fiduciary Net Position** – Detailed information about the OPEB plan's fiduciary net position is available in the separately issued OPEB financial statements that will be included in the CalPERS CAFR. Copies of the CalPERS CAFR may be obtained from the CalPERS Executive Office – 400 P Street – Sacramento, CA 95814.

### OPEB EXPENSE AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO OPEB

For the year ended June 30, 2018, the District recognized OPEB expense of \$2,972,841. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	 rred Outflows Resources	Deferred Inflows of Resources			
Net difference between projected and actual earnings on OPEB Plan Investments	\$ -	\$	604,856		
Contributions Made Subsequent to the measurement date	3,182,371		-		
	\$ 3,182,371	\$	604,856		

### 10. OTHER POST-EMPLOYMENT BENEFITS (Continued)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30	Out	let Deferred flows (Inflows) f Resources
2019	\$	(151,213)
2020		(151,213)
2021		(151,213)
2022		(151,217)
Total	\$	(604,856)

### 11. SELF-INSURANCE

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Coverage provided by self-insured and excess coverage is generally as follows as of June 30, 2018:

	Self-insurance	Excess Coverage
Type of Coverage	Commercial Insurance Coverage (per occurrence)	Self-Insured Coverage (per occurrence)
Workers' Compensation Commercial General Liability	Up to \$2,000,000	\$2,000,000 to \$25,000,000
Bus	Up to \$3,000,000	\$3,000,000 to \$292,000,000
Light Rail	Up to \$3,000,000	\$3,000,000 to \$292,000,000
*Property: Perils	Up to \$100,000	\$100,000 to \$250,000,000
Collision Flood	Up to \$500,000 Up to \$500,000 Up to \$250,000	\$500,000 to \$250,000,000 \$500,000 to \$250,000,000 \$250,000 to \$10,000,000

<sup>\*</sup> includes revenue and non-revenue vehicles

The District purchases commercial insurance for claims in excess of self-insured amounts and for all other risks of loss to a stated maximum amount. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There have been no significant reductions in insurance coverage from the previous year.

The claims liability of \$17,992,627 reported at June 30, 2018, is based on estimates of the amounts needed to pay prior and current year claims and to allow accrual of estimated incurred but not reported claims. Non-incremental claims adjustment expenses have been included as part of the liability. As of June 30, 2018, the Public Liability and Property Damage (PLPD) liability is discounted using a discount factor of 1.0% as the District holds in a reserve fund of \$3,170,637 at June 30, 2018. The Workers' Compensation liability is not discounted.

These claim estimates are actuarially determined and based on the requirements of GASB Statements No. 10 and 30, which require that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Changes in the District's claims liability amount during the fiscal years ended June 30, 2018 and 2017, were as follows:

				С	Surrent Year				
				(	Claims and				
	Fiscal Year	Be	ginning of the	(	Changes in			Er	nd of the Year
	Ended	Υ	ear Liability		Estimate	Cla	ims Payments		Liability
Ī	June 30, 2018	\$	22,497,838	\$	6,596,226	\$	(11,101,437)	\$	17,992,627
	June 30, 2017	\$	19,871,339	\$	6,338,724	\$	(3,712,225)	\$	22,497,838

### 12. CONTINGENT LIABILITIES AND COMMITMENTS

The District is involved in various claims and litigation arising from its operations. District management, after consultation with the District's general counsel, believes that the resolution of such matters will not have a material adverse effect on the District's financial position or results of operations.

The District receives funding for specific purposes that is subject to review and audit by the granting agencies or funding source. Such audits could result in a request for reimbursement for expenses disallowed under the terms and conditions of the contracts. Management is of the opinion that no material liabilities will result from such potential audits.

The District has construction contracts and property acquisition commitments of \$21,719,019 at June 30, 2018. Federal, state, and local grant funds have been approved for such construction.

### Notes to Schedule:

Benefit changes – There were no substantial changes to the benefits in FY2017.

Changes of assumptions – the investment rate of return and discount rate was reduced from 7.65% to 7.50%, during the year ended June 30, 2016, which is the measurement year for reporting. The amounts presented for each fiscal year were determined as of the year end that occurred one year prior.

This is a 10 year schedule; however, the information in this schedule is not required to be presented retroactively. ATU and IBEW are reported as stand-alone plans beginning 7/1/16.

### Notes to Schedule:

Benefit changes – There were no substantial changes to the benefits in FY2017.

Changes of assumptions – the investment rate of return and discount rate was reduced from 7.65% to 7.50%, during the year ended June 30, 2016, which is the measurement year for reporting. The amounts presented for each fiscal year were determined as of the year end that occurred one year prior.

This is a 10 year schedule; however, the information in this schedule is not required to be presented retroactively. Years will be added to this schedule in future fiscal years until 10 years of information is available.

# EMPLOYEES WHO ARE MEMBERS OF ATU Plan (Dollar amounts in thousands)

	2018	2017
Actuarially determined contribution  Contributions in relation to the actuarially	\$ 7,863	\$ 7,987
determined contribution	7,863	7,987
Contribution deficiency (excess)	\$ -	\$ -
Covered payroll	31,575	30,212
Contributions as a percentage		
of covered payroll	24.90%	26.44%

Note: This schedule uses covered payroll which is different than actual payroll and therefore the contributions as a percentage of covered payroll will differ from what was actually contributed.

### Notes to Schedule:

Valuation Date 7/1/2016 (to determine FY17-18 contribution)

Timing Actuarially determined contribution rates are calculated based on the actuarial valuation one year prior to the

beginning of the plan year

### Key methods and assumptions used to determine contribution rates:

Actuarial cost method Entry Age

Amortization method Level percentage of payroll, closed 16 year period as of 7/1/2016

Asset valuation method 5-year smoothed market

Discount Rate 7.50%
Amortization growth rate 3.15%
Price inflation 3.15%

Salary Increases 3.15%, plus merit component on employee classification and years of service

Mortality RP 2014 w/ Scale MP-2015, base tables adjusted 115% for males and 130% for females

### Other information:

A complete description of the methods and assumptions used to determine contribution rates for the year ending June 30, 2018, can be found in the July 1, 2016 actuarial valuation report. The financial reporting for the ATU and IBEW Plans' was split during FY2017, previous years information for the ATU Plan is not available.

# EMPLOYEES WHO ARE MEMBERS OF IBEW Plan (Dollar amounts in thousands)

Statistical Section (Unaudited)

This part of the Sacramento Regional Transit District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

CONTENTS Page

Financial Trends 79

These schedules contain information to help the reader understand how the District's financial performance and well-being have changed over time.

Revenue Capacity 81

These schedules contain information to help the reader assess the factors affecting the District's ability to generate its fares.

Debt Capacity 83

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

### **Demographic and Economic Information**

85

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place and to help make comparisons over time and with other governments.

### **Operating Information**

88

These schedules contain information about the District's operations and resources to help the reader understand how the District's financial information relates to the services the District provides and the activities it performs.

**Sources:** Unless otherwise noted, the information in these schedules is derived from the comprehensive annual reports for the relevant year. The District implemented GASB Statements No. 63 and 65 in the fiscal year ended June 30, 2013, GASB Statement No. 68 in the fiscal year ended June 30, 2015 and GASB Statement No. 75 in the fiscal year ended June 30, 2018. Schedules comparative results are retroactively presented.

**Notes:** Details regarding the District's debt can be found in the notes to the financial statements. Operating expenses do not include depreciation and capital funded expenses.

A portion of the 2012 Revenue Bond interest is funded with Federal Capital Revenue

Capital revenue has been excluded from this schedule.

#### Federal Funds

Section 5307 Funds: Funds distributed by formula to large and small urban areas for a variety of transit planning, capital and preventive maintenance needs.

Section 5309 Fixed Guideway Funds: Funds distributed by formula to urban rail transit operators for repair and rehabilitation of commuter and light rail systems.

Section 5309 Bus Funds: Funds for bus purchases and bus support facility projects. These funds are specifically earmarked by Congress each year.

Section 5309 New Starts Funds: Funds for fixed guideway (i.e. light rail, commuter rail, etc.) projects. New Start projects are recommended by the Federal Transit Administration and based on rigorous criteria and selected for funding by Congress.

Section 5316 Jobs Access & Reverse Commute (JARC): Funds for operating new service that provides increased access to job opportunities, either through new service routes or expansions of existing routes into non-traditional service hours.

Section 5317 New Freedom (NF): Funds to reduce barriers to transportation services and expand the transportation mobility options available to people with disabilities beyond the requirements of the Americans with Disabilities Act (ADA) of 1990.

Federal Highway Discretionary Funds: Funds distributed for a variety of transportation planning, construction, and equipment acquisition needs. Projects are approved for funding by local agencies and forwarded to appropriate state and federal agencies for funding authorization.

Section 5339 Bus and Facilities Funds: A portion of the funds distributed by formula and a portion of the funds are distributed through a competitive process. Funds are used for bus renovations, purchases and bus support facility projects.

Section 5337 State of Good Repair Funds: Funds distributed for formula to repair and upgrade rail transit systems along with high-density motor bus systems that use high occupancy vehicle (HOV) lanes including bus rapid transit (BRT).

ARRA Funds: On February 17, 2009 the President signed into law the American Recovery and Reinvestment Act of 2009 (ARRA). The Act provides direct funding from the federal government for infrastructure, fiscal stabilization and other programs over the next several years. ARRA is designed to create or save jobs, and invest in science, health care, transportation, education, and energy efficiency.

### **TEN YEAR FUNDING HISTORY (Continued)**

#### **State Funds**

State Transportation Improvement Program: Funds distributed by the State for projects, including transit construction projects that relieve traffic congestion on state and local roads and highways.

Other: These funds include Transit Capital Improvement funds for projects approved for funding in FY 1997 and earlier (the last year that TCI funds were made available by the State), Traffic Congestion Relief Program funds approved in the FY2000 State Budget for specific District capital projects, Proposition 1B funds approved for funding in FY2007, and Cap-and-Trade Program funds.

#### **Local Funds**

Measure A is a  $\frac{1}{2}$  cent sales tax ordinance that supports road and public transportation improvements in Sacramento County. Passed by voters in 1998, it expired in April 2009. The District received approximately 1/3 of the tax (1/6 cent). In November 2004, voters approved an extension of the Measure A ordinance until 2039 with transit receiving 38.25% of the  $\frac{1}{2}$ -cent tax.

Local Transportation Fund: Funds generated by the state sales tax, and used for transit operating support purposes. The Transportation Development Act (TDA) allocates a portion of the state sales tax for transportation purposes.

State Transit Assistance Funds: Funds generated by the sales tax on gasoline and diesel fuel sales. These funds are disbursed to transit agencies for a variety of transit capital and operating support needs. SB1 funds, the Road Repair and Accountability Act of 2017, are included in STA funds beginning FY2018.

Other: This funding is from City of Sacramento, City of Rancho Cordova, County of Sacramento, City of Roseville, Sacramento Area Council of Governments (SACOG) and Sacramento Housing, Redevelopment Agency (SHRA), Bus Fire Insurance Proceeds, and cost reimbursement agreements with local agencies.
